Day 16: Preparing for Midterm II

Raymond Yee

March 13, 2014 (`http://is.gd/wwod1416`)

Goals Today

In Class Time to studying for midterm.

Notes

- In case it hasn't been clear: **I expect you to study the notebooks I've writen carefully.** They are the core text of the course.
- For future reference: Day_16_A_DimpleJS_Example.ipynb
- As seen in a dev version of nbviewer: qa.nbviewer.ipython.org: Day_16_A_DimpleJS_Example.ipynb?create=1
- Remove output from IPython notebook from the command line (dev version 1.0)
- #HackFSM: A Hackathon for the Free Speech Movement Digital Archive | Digital Humanities

In Class Activity

One way to study for the midterm: get together in small groups, try to answer each question from AJ's notebook with sample questions, and talk through how to answer the questions:

working-open-data-2014/notebooks/Day_16_B_Example_Questions_cont.ipynb at master: rdhyee/working-open-data-2014

Remember: to check the answers, copy and paste (or type) code segments into a notebook and run the cells.
