Day 11: Looking Ahead, Plotting, Projects, and Baby Names

Raymond Yee

February 25, 2014 (`http://is.gd/wwod1411`)

Goals Today

- talk about the upcoming **midterm**: (Day 17, 2014-03-18)
- packing up census calculations into Python module
- learn the basics of matplotlib

Answers to Day 8 A Metro Diversity published

Day_08_B_Metro_Diversity.ipynb

As I announced on bCourses this weekend, you might benefit from studying a less abstract calculation of `entropy_rice`, which I present in Day_11_A_Explicit_Entropy_Calc.ipynb

In Class Activity

Assignments / Homework
